

Balance Peek and Wearable Devices

Balance Peek allows members to check their balances for selected accounts without completely logging in to the Connexus mobile app. Members can also use Balance Peek on their compatible wearable device.

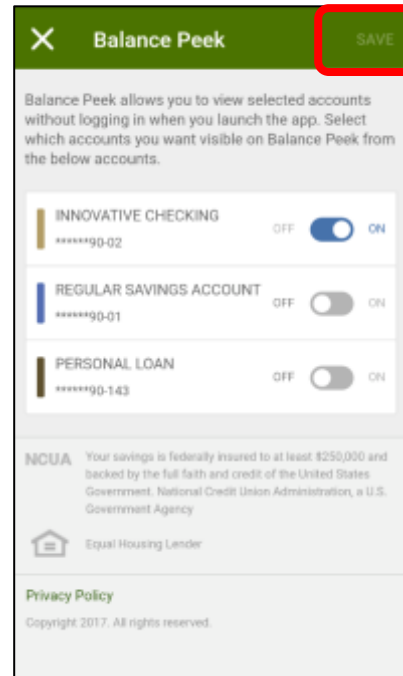

Members can select which accounts will appear in Balance Peek under Settings in their Connexus mobile app.

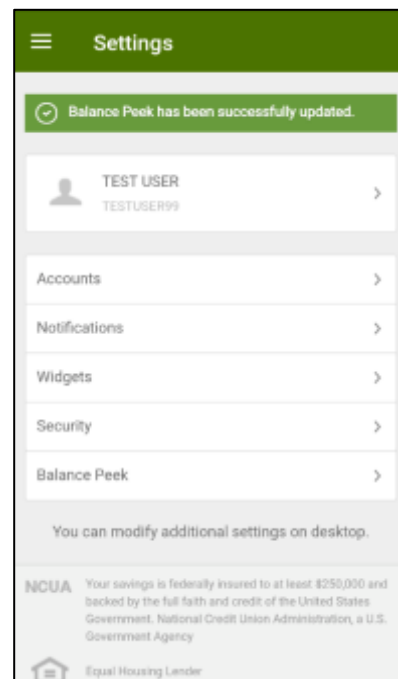

Set the On/Off switches next to each account to select accounts to appear in Balance Peek.

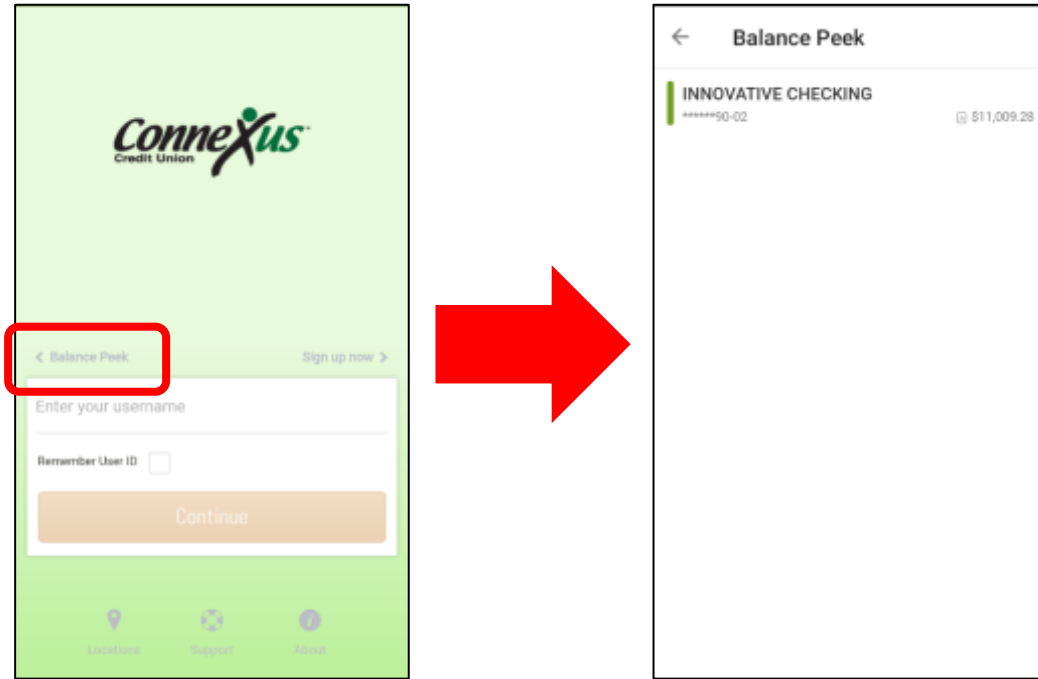

Tap "Save" to save these settings.

A confirmation message will appear.

When the member launches the Connexus mobile app after setting up Balance Peek, they can tap “Balance Peek” to view their account balances without logging in to the app.

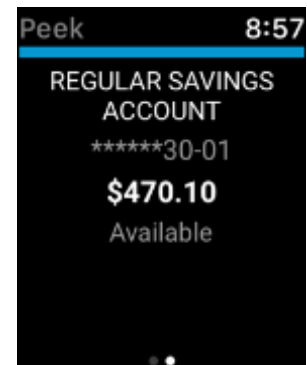

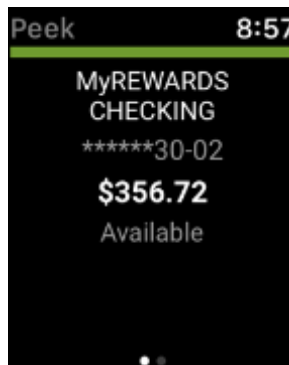

Using Balance Peek with a Wearable Device:

Balance Peek can also be launched from compatible wearable devices, such as an Apple Watch or Android Watch.

When a wearable device is successfully paired with a mobile device running the Connexus mobile app, the Connexus app icon will appear on the wearable device. Tapping the Connexus icon will launch Balance Peek on the wearable device.

Users can swipe between different accounts in Balance Peek if more than one account has been selected to be included in Balance Peek.

Frequently Asked Questions

How many accounts can I see in Balance Peek?

Users can set up to five accounts to be viewable in Balance Peek.

If more than one member sets up Balance Peek for their accounts on the same device, which accounts will be displayed in Balance Peek?

Balance Peek will show the selected accounts for the member who most recently logged into the Connexus mobile app.

Which mobile devices are compatible with Balance Peek?

Mobile devices must be capable of running at least iOS 9 or higher or Android version 4.4 or higher in order to guarantee compatibility with Balance Peek.

Which wearable devices are compatible with Balance Peek?

The Apple Watch (running watchOS 2 or higher) is compatible with Balance Peek.

Official Android Wear devices (running Android Wear OS 1 or higher) are also compatible with Balance Peek. A list of official Android Wear devices can be found [here](#).
